At the Anjuman-I-Islam's Institute of Hospitality Management the learning needs of students is a primary concern for prospective Hospitality Professionals. As a HEI we play a pivotal role by assessing students' learning levels and organise tailored programs for Advanced learners and Slow learners.

First, we evaluate students' learning abilities through Continuous Internal Assessments. Then we have interactive discussions with them and analyse their performance. This helps us to identify advanced learners and slow learners.

For advanced learners, specialised programs such as solving Psychometric Tests, workshops, research opportunities are designed to challenge their intellect and enhance their skills, and for slow learners we focus on the fundamental concepts, repeat practical sessions, and one-on-one coaching. Additionally videos were made and uploaded for the students so that they can practice.

By implementing this dual approach, the institute ensures a comprehensive learning environment that caters to varied learning paces.
